Illawarra
Metallurgical Coal

MENANGLE ADVISORY PANEL

Illawarra Metallurgical Coal regularly meets with the local community via the Menangle Advisory Panel (MAP) to discuss the proposed Appin Mine Ventilation and Access Project.

The MAP assists IIllawarra Metallurgical Coal to understand the issues and concerns of the community in relation to the proposed Project.

Why does Illawarra Metallurgical Coal have the MAP?

The MAP was established to facilitate two-way communication between Illawarra Metallurgical Coal and the Menangle and Douglas Park communities in relation to the proposed Project.

We are committed to working closely with the community, while acknowledging that interests of the different parties will vary. It is our intention to respond and accommodate community advice to reach the best possible outcome.

If you would like more information about the MAP or are interested in becoming a member, contact 1800 102 210, or the Independent Chairperson (details overleaf).
