Menangle Advisory Panel

SOUTH32
Illawarra Metallurgical Coal

Nominations are open for community members to join the Menangle Advisory Panel.

Who we are

At Illawarra Metallurgical Coal, we produce high quality metallurgical coal – a key ingredient in the steelmaking process. Much of our coal goes to the local Port Kembla Steelworks, supporting local manufacturing and regional jobs.

Want to contribute to your community?

This committee is a forum for open dialogue between Illawarra Metallurgical Coal and representatives of the local community on issues directly related to our ventilation and mine access project at 345 Menangle Road.

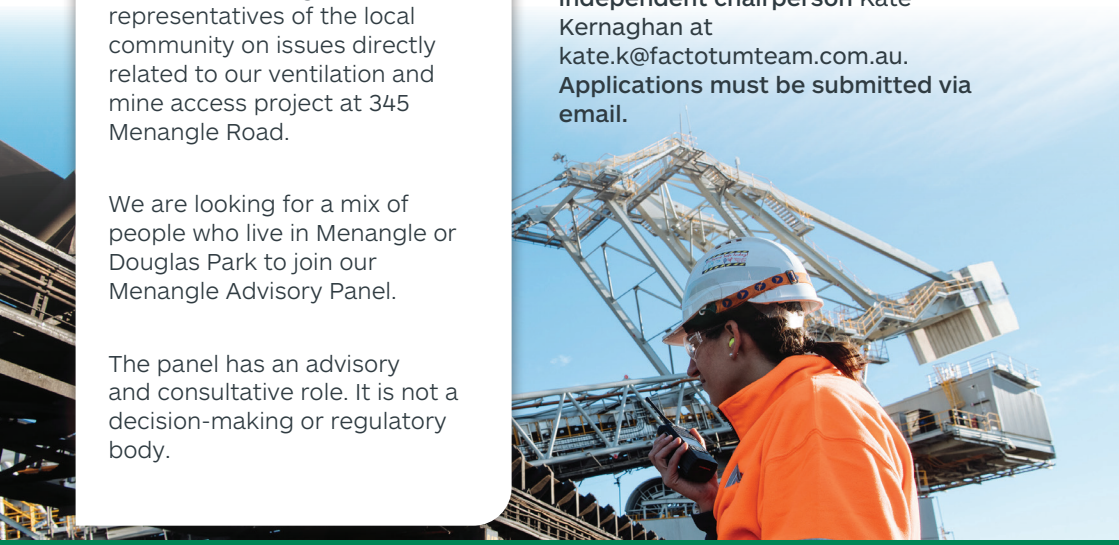

We are looking for a mix of people who live in Menangle or Douglas Park to join our Menangle Advisory Panel.

The panel has an advisory and consultative role. It is not a decision-making or regulatory body.

Selection Criteria

- Your role as a panel member is voluntary
- You are expected to respectfully engage with other panel members and contribute constructively to panel discussions
- You must attend all scheduled meetings
- You are expected to share information with the panel and the broader community
- You will be expected to sign and adhere to the Menangle Advisory Panel Charter

If you would like more information or to apply, please contact the committee's independent chairperson Kate Kernaghan at kate.k@factotumteam.com.au. **Applications must be submitted via email.**

Applications close Thursday, 6 April 2023.
